nero

L'azienda

Nero ceramica, anno dopo anno si è imposta come leader mondiale in termini di design innovazione e qualità.

Opera con successo sia in ambito nazionale che internazionale, esportando i suoi prodotti in tutto il mondo.

Il suo staff è guidato da sig. Sergio Rossi, fondatore di alcune delle più importanti aziende del distretto di Civita Castellana.

The Company

Nero ceramica year after year is becoming the most accurate choose in the field of bathroom design for customer.

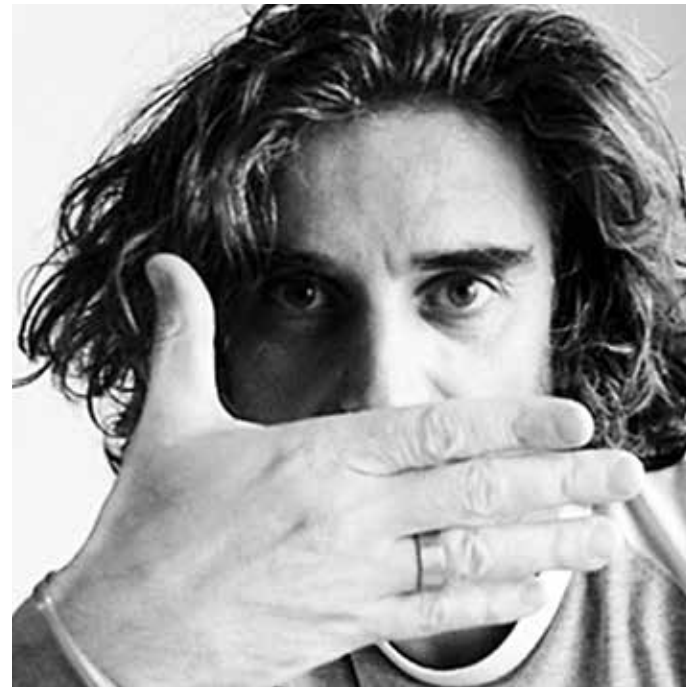

We are operating with succes from 7 years exporting our product in all world. Our dinamyc and professional staff is followed by the experience in production of sanitary ware of our General Director Mr. Sergio Rossi.

L'innovazione / Innovation

La ricerca intrapresa da tempo da NeroCeramica è volta a combinare fattori estetici, emozionali e funzionali, all'innovazione ed al rispetto per le risorse idriche ambientali. Sulla base di tale consapevolezza l'azienda ha sviluppato tecnologie che consentono ai suoi prodotti (gli unici attualmente sul mercato) di funzionare al meglio ottimizzando il consumo di acqua, riducendolo da 6 a 3,5 litri per ogni singolo utilizzo. Grazie al sistema WATER SAVING è possibile risparmiare oltre il 30% di acqua rispetto ai tradizionali wc. I nuovi wc NeroCeramica sono stati progettati tutti nel 2008, concepiti per scaricare con soli 3,5 litri. WATER SAVING è un sistema certificato da XTHEC.

For a long time NeroCeramica has been researching methods for combining aesthetic, emotional and functional factors to innovation and to respect for the environment's water resources. Based on this knowledge, it has developed technologies that allow its products (the only ones currently on the market) to function effectively by optimising water consumption: from 6 to 3,5 litres for each use. The WATER SAVING system allows saving over 30% of water compared to classic toilets. The new NeroCeramica toilets were designed in 2008 to discharge only 3,5 litres of water on each use.

I nostri prodotti rispettano i più alti standard qualitativi e funzionali a livello internazionale. Ogni singolo articolo è stato testato sia dal nostro ufficio tecnico, sia presso enti ufficialmente riconosciuti.

Our products respect the highest international standard in term of quality and functionality.

Each items has been tested from our technical office and also from auctorized center.

Libera

design by Emanuele Pangrazi

Nella collezione da bagno Libera emerge chiaramente il significato delle linee che accolgono e rassicurano.

Le forme essenziali e sinuose ridefiniscono la poetica del bagno senza rinunciare ad una personalità contemporanea che si adatta ad ogni ambiente.

Emanuele Pangrazi è un designer che opera con successo nel settore della ceramica sanitaria, dell'arredamento e dei prodotti hi-tech. Egli crede che i fattori che intervengono alla formazione di un buon prodotto siano il più delle volte di natura umanistica, anzi che tecnico-scientifica. Secondo questa linea di pensiero, nel 2008 fonda Mater, uno spazio in cui la libera circolazione di idee diventa un flusso in grado di alimentare la voglia di tradurre in realtà pensieri e soluzioni.

In Libera bathroom suite stands out the meaning of the lines which welcome and comfort.

The essential and sinuous shapes redefine the poetic of bathroom; the contemporary personality of Libera, allows it to adapt to every environment.

Emanuele Pangrazi is a designer who has become very succesful in sanitary ceramics field, interior design and hi-tech products. He believes that factors that take part into making a good product are most of the times of a human nature, rather than just technical-scientific. Following this threat of thought, in 2008 he founded Mater, a place where freedom in the traffic of ideas becomes a flow that makes it possible to translate into reality ideas and solutions.
